MAGISTRATE MIKEL DEALT STIFF SENTENCE FOR SERIOUS OFFENCE

Gould Took Life Term Without Flinching—Court Bitter-ly Arraigns Prisoner as Moral Menace—Considered Giving the Lash—Defense—Counsel Complimented as Doing All Possible For Their Client.

Life imprisonment was the sentence imposed upon Henry Ward Gould by Magistrate W. C. Mikel, at police court this morning on the charge of indecent assault upon a young girl under the age of fourteen years, of which charge he was found guilty yesterday. He was also sentenced to one year found guilty yesterday. He was also sentenced to one year, cach on two charges of a lesser nature on young girls under sixteen years of age. The sentences will run concurrently with the life sentence, B. C. Donnan appeared for the Crown and J. D. O'Flynn represented the accused.

When Gould was asked to stand up while sentence was being passed, aside from his face flushing, he did not appear to show any-signs of nervousness, and afterwards conversed with his counsel quite unconcernedly. The prisoner has just been released from the County jail where he served a month

'ed did net-know what he was doing, due to his mental doublion. Mr. OFFyon stated that he expected the prisoner would be taken to Fortsmouth Fenitentiary in a day or two.
Gould is well known in this city and county, where has open practically all his life. In his early years, he was ongaged in the leaching profession, and also for a number of years, cheesemaking. He has been conducting a shoe repairing shop on the corner of Finnesch street and the Market

Square for a number of years.

Owing to domestic trouble Gould has been living apart from his wife, who has been residing with her daughter

with plenty to spare Hills that have been the traditional test for mo-tordom's most powerful cars are topped by the Hudson Super-Six on a rising speedometer.

Alertness and immediate response to the throttle account for the way the New Hudson Super-Six takes advantage of every driving opportunity. There is no motor labor. There is no sense of the mechanical. 'All feeling that there is a motor and complicated mechanism is absent.

And whether in city driving or in high sustained speed over country roads the action and comfort of your Hudson is the very luxury of motion.

Opening Evening

Can you use these 6 extra salesmen?

F you had six salesmen as good as your best one, think how your sales would jump!

Set your best salesman the task of selling by Long Distance, and you will multiply his efforts many times. One jewelry and silverware house many times. One jewelry and silverware nouse calls its customers every week on the Station-to-Station basis, offering them a low-priced "Special." The extra orders secured after sell-ing the "Special" amount to considerable.

It is an accepted axiom of telephone selling that going after business by Long Distance regults in about twice as many sales as waiting for customers to telephone in their order—even if you pay the charges. J. A. COKERS.

Sure cure for Ford chatter!

NOT the car itself, not the transmission bands not even the mechanic who last repaired the bands, should be blamed for Ford charter.

Nine times out of ten, chatter can be traced to Incorrect lubrication. And ten times out of ten, chatter can be quickly cured by the use of the right oil—Veedol Forzol.

Veedol Forzol is expressly made for the double vector forcis is expressly made for the double task of Ford lubrication. It properly lubricates the wotor, resisting deadly heat and friction. And it correctly lubricates the transmission bounds, assuring smooth control, and charterless driving. For these reasons it gives eight definite operating economies:

"The 8 Economies of Veedol Porzol"

Eliminates costly chatter
10 to 25% gasoline saving
10 to 25% saving in oil
Reduces carbon 10 to 25%
Reduces repair bills
Reduces repair bills

For more power, greater economy and no chatter get Veedol Forzol today. Drive to a dealer who displays the orange and black Veedol Forzol sign. After one trial you'll always ask for Veedol Forzol by name

95,000 Gallons of Marvelube Needed to Supply the Immediate Requirements of the Prairie Provinces

On Tuesday, March 20th, the largest single shipment of Motor Oil that Canada ever saw left our Sarnia Re-finery for delivery to points in South-ern Saskatchewan —twenty-eight cars, the whole shipment totalling 95,000 gallons.

95,000 gallons.
Trainload shipments are rare in the oil business, and when you stop to think that this trainload carried nothing but Marvelube—a product that came on the market exactly a year ago—you can form some idea of the extremely high quality that must have gone into this oil to make it so quickly the most popular oil in Cameda. Success such as Marvelube has attained is perhaps the most striking proof that can be offered of the truth of our big claims for its superiority as a

lubricant. To understand why we are shipping Marvelube by the trainload and to appreciate the process of the pr 500 mile run.

Another great advantage that you cannot immediately check—but which will show these fas you continue using Marvelube—is the protection it affords the working parts of your engine, resulting in lower upkeep costs and longer life for your car.

Eye Headaches

Your headaches may be caused by defective vision—or it may not. But the majority of headaches are. They defect may be so alight that a person may be, able to see distinctly, yet only by a continual straining of the muscles and nerves—resulting in "ocular" head ache.

There is a way to as-

ache.

There is a way to ascertain positively wheth or or not your headache is due to faulty eyesight, and that is by having you eyes examined here.

"Any overtures from Canada los ing toward reciprocity will receive quarters in Washington. Mr. Coolidge is the last person in the world who might be suspected of lerning to a policy of tariff conthe whole course has been in the op-

posite direction.

"There was a time in Republican
history when Mr. Coolidges party in principle and practice favored re-ciprocity with Canada. Canada besitated and then, after a sudden political change of government, re-fused to accept it. Since then there has never been the slightest chance of its receiving what it once repect-ed. Mr. Coolidge will not be tempted. Mr. Coolidge will not be tempi-ed to permit tampering with the tariff with an eye to trade with Canada or any other country? The appends, and now threats, from suppeals, and now threats, from western farmers that the tariff in some respects for their sake be lowered leave the rock-bound New England protectioning immovable." Make **NEW MILEAGE Budgets** not UPKEEP Budgets

Many a promising road-building programme trips over the main-tenance hurdle. New mileage be-low expectation and far behind modern traffic needs, results from too large a proportion of the bud-get going to re-condition nonpermanent roads.

Permanent concrete roads remove this Permanent concrete roads remove this-hurdle. Maintenance with them, is merely incidental and communities that have standardized on them, find each ensuing year's budget increasingly pro-ductive of new mileage.

Such communities are keeping pace with the growth of motor traffic, providing even, safe driving surfaces that cut gas, tire and vehicle repair costs from one-fourth to one-third.

Advocate more concrete roads in your community and help it develop and prosper.

A prominent manufacturer makes a radical change

A VERY well-known manufacturer with 70 dealers in Western Ontario now uses Long Distance Sequence Calls to call them once a morth to get their orders—so they will always have full stocks. A postal card sent in advance nodifies them when the call will be made, and they are ready.

These calls, at first made Person-to-Person, are now all made Station-to-Station. It proves to be just as satisfactory—is much quicker—and about 20% cheaper,—The saving each month aurprised them.

That is the unbelievable number of explosions in a single of linder in the modern, high-speed motor. One lightning explosion pursues another so rapidly that they almost fuse into a steady flame of exhibition between

And, that searing blast is only prevented from reducing your living motor to a dead mass of overheated metal—by a thin film of motor oil.

That is why lubrication authorities recommend Veedol, the oil that gives the "film of protection". thin as tissue, smooth as silk, tough as steel.

To maintain the fighting quality of the "film of protection" Veedol is subjected to more than 3,000 tests a month at the Tide Water refinery. Every drop must withstand heat 100 degrees hot-ter than the hortest friction spot in your motor.

Ordinary good oils may protect your motor.
For sure protection at all times, buy Veedol—but, only from dealers who display the orange and black Veedol sign. Always ask for Veedol by name.

The JOHN LEWIS COMPANY

Every quality that is built into any product is measured finally by the degree of its acceptance by the public. Only the best can hope to win and hold the public approval, for approval has ever been based on confidence and confidence must be earned.

Public confidence has made the Ford touring the world's most popular passenger car. It has pioneered motor transportation in every quarter of the globe and because of fundamental sound-ness has maintained an established leadership.

It costs little to buy, to operate, and to maintain, and it provides every essential of comfortable and efficient passenger transportation. Selection of two body colors in durable lacquer—moleskin and gray.

IMPERIAL ETHYL GASOLINE

Brings a New Degree of Satisfaction to Warm Weather Motoring -Warm weather is ETHYL weather

THE "KNOCKING" that is so much in evidence with the overheated engines of Spring and Summer, is quickly cured by Imperial Ethyl Gasoline.

THE CARBON that forms so quickly now that warmer weather gives more motoring opportunity, is "turned into power" by Imperial Ethyl Gasoline.

THE STEEP HILLS that are met more frequently now that warm weather invites you into the country, are welcomed by the motorist driving with Imperial Ethyl; for each steep grade is a new chance to demonstrate the added power afforded by this superior fuel.

THE TRAFFIC that makes you slow to a crawf, is no longer a nuisance to Ethyl users; for Ethyl enables you to stay in high at low speed and accelerate in a flash to a quick getaway.

Imperial Ethyl Gasoline reduces gear-shifting, less-ens vibration and engine wear and tear; and saves the trouble and expense of carbon removal. Gives MILEAGE too.

RUSHLOW TRIPLET'S FUND

Miss Shore, the local V. O. N. nurse, has been good nough to undertake the proper distribution of the fund so enerously donated by the citizens of Belleville for the Rushgenerously donated by the citizens of Bellevine for the Australia. The money is being placed in the custody of Mr. G. A., C. Weir, of the Bank of Montreal, to be used as occasion warrants for the babies. While the fund now stands at close to one hundred dollars, it is hoped and expected that further donations will be made as the triplets will require special care for three or four months, if their lives are to be

In Thursday's paper, it was announced that Citizens Dairy had sent three dollars worth of milk tickets to the Rush-low family. This was an error in taking the message over the telephone as it was the City Dairy (E. O. Blake, 57 Ridley street, Proprietor) who made the donation.

REGARDING the physical condition of automobiles and trucks.

The Highways Traffic Act makes certain provisions which motorists would do well to understand and observe.

motorsta would do well to understand and couerve.

It is increasingly necessary that these provisions should be stringeredly maintained in view of the igneat increase in tourist traffic on our highways, the increase last year of 40,000 cars in Ontario and the more extended use of country roads by our own people. The new speed limit recently authorized by the Legislature adds to this necessity.

facine adds to this necessity.

Car and truck owners are surged to check their machines frequently and to renew parts which are won or broken.

Headilphia should be adjusted regularly. Glaring lights are against the law and a menusce to traine. Simple naturements with the state of the state

Brakes and sterring gear should be in refect condition, so this, be called upon each part will respon to the will of the driver. The law provides that license numbers must be clean and so aced as to be easily read. A fundamental in the control of other training is that each machine shall be quickly identified.

It is the intention of the Department of Highways to take note of the condition of automobiles using the roads. To avoid inconvenience to motorists, attention is drawing the necessity for rigid obedience of the law, and the penalties for rigid-

THE demonstrated quality of the Oldsmobile Six extends to the smallest hidden part. In every detail, Oldsmobile Six is precision built a startling assertion in connection with a car so low-nised.

In Oldsmobile Six the highest standards of craftsmanship and materials are rigidly main-tained. In every operation in its manufacture, in every phase of its inspection, split-hair measurements mark the Oldsmobile code of standards.
And the worth of these exacting methods is verified on the famous General Motors Proving Grounds, where every condition of use anticipated and duplicated—where sustance is obtained that Oldsmobile is will mark merit, the tullest owner confidence. Oldsmobile Six beauty, perform-ance, endurance and comfort are firmly founded upon the strictest standards rigidly maintained.

Chandler has hit a stride that is making them all talk!

WHENEVER something better comes along—something actually, visibly, intrinsically better—the world quickly welcomes it.

Witness the great spontaneous success of the magnificent new Royal Eight and new Sixes by Chandler—here, there and everywhere!

Pressing Rapidly Ahead

Four different price classes are feeling Veenly the widened extent and increased volume of Chandler sales.

volume of Chandler sales.

In every state, every city and town, motor carowners are shifting to Chandler.

The good and ample reasons for this success see very apparent.

In Eights and Sixes alike just see how Chandler has glorified the present trend of motor car design.

or motor car design.
See how Chandler has embellished the
customary standards of luxury.
See how Chandler has surpassed all
ideas of modern performance—with the
mighty power of its marvelous Pikes
Peak Motor!

A Company of Strength The cars themselves reflect the fortified atability back of the cars. And this stability of Chandler is lumportant to bear in mind—for everybody wants to be sure the car he buys to backed up by an organization of strength and permanence. Chandler owns two modern large-volume plants—"lock, stock and barrel" —and not a penny against them on paper or in fact. Chandler is wholly independent of any cody and everybody in the entire industry

More Magic Baking Powder is sold in Canada than of all other brands combined, not because it is the most widely advertised, but because most housewives have been con-vinced by experience that it is always absolutely reliable.

This letter tells of an interesting experience:

Dear Sirs,

Toronto, April 7, 1926.

I cannot help just sending you a little note of my experience last night. I cannot neep just sending you a little note of my experience last light.

In the evening I started to bake a cake, and when I came to use the baking powder I noticed it was not "Magic" (as I have always been using at any time when I bake). However, I had the cake mixed and put in this — baking powder, (It is not nite to say the kind, is it?) I put the cake in the oven, and when I looked about the minutes later, my cake was about ¼ inch high, I was very disappointed. First, a blamed the shortening, then the flour—of course, never I period of the control of the course, in the cake is the course of the course of

To Husbands whose wives drive Fords

IF your wife drives a Ford and the car starts to chatter, don't blame your wife. Don't blame the Ford either. Blame the oil!

In your Ford the same oil must lubricate the motor and the transmission bands. But ordinary motor-oils usually fail as transmission lubricants. monor-outs usuany rail as transmission inoricants. The bands slip,—and grab,—and slip again. And you have irritating chatter that wracks your car,—shortens its life,—causes repairs.

But here is one oil -Veedol Forzol - a different kind of oil-made exclusively for Fords. It eliminates chatter and assures the smooth control—the ease of driving—you should get from your Ford.

Ask your wife to read this announcement and for your wife to read this announcement and to try this special oil. Caution her to ask for Veedol Forzol by name from the dealer who displays the orange and black Veedol Forzol sign.

It is all bad for the country. Piftee It is all bad for the country, Futcen or twenty years ago when Canada was passing through an era of prosperity, Canadian governments ran amuck in an orgy of extravagance. They built railways and canals and dispensand loans and subsidies with a reckless ness that was needness of the future. So long as money was coming into the treasury they poured it out upon every sort of folly, and in the end when hard times came, Canada found and national undertaking that left her financially distressed. To day history is repeating itself. Again we are passing through a period of prosperity and once more our politic-ians untaught by our past experience are spending the public substance with the recklessness of inebriated scamen Taxes, it is boasted, have been reduced But they have not been reduced because of economies or retrenchment; and the stark truth is that unless existing prosperity holds out, or more than holds out, Mr. Robb next year will come to Parliament with a deficirolving necessity perhaps of the re

TODAY'S THOUGHT victory never rests with the faint-hearted. No strength of arms, nor copiousness of supplies, nor skill in tao ties, nor even individual dashes of bravery will supply the want of a de-termined spirit, a resolution to fight until the end, a willingness to bear all until the end, a willingness hardships and still carry on.

CHINESE FIGHTING.
Few things are done in China as
they are in western countries. War in
no exception. Two armies approach one another: The commanders take riched of the situation. Each size of the source—money, food, arms and ammunition, strate of the size of her. Eight doctors out of every ten told us they were advising the Nujol type of treatment for their patients in place of laxatives—and for these

Unlike Laxatives

Nujol

Nujol acts entirely differently. It contains no drugs, no medicine. It action is mechanical. It merely softens the dried water matter in the intestines and lobricates the passage so that the musics of the bowels can expel the water matter greatly in actually and thoroughly.

Nature-given Remedy Nutol appeals to the medical is because it is a simple, relentific-safe remedy for constipation, matter how severe the case may it is gentle in its action and pl and to take. Children love it!

What Gasoline gives you

-Utmost Satisfaction?

-Greatest Economy? *

THE ANSWER to the most exacting motoring requirements is found in Imperial Ethyl Gasoline. Whatever make or model of car you drive you can get the most out of your car by filling your tank with this superior fuel. You sweep over hills, you slow to a crawl in traffic—all without touching the gear-lever. Gone are the knocks, the "bucks," the vibration and the strains! What you really have in place of these, is an engine performance finer than you've a right to expect from your car—for Imperial Ethyl simply transforms a motor—cures the knock and turns the carbon into power.

The advantages of Imperial Ethyl Gasoline are so marked as to make the annul additional topt a real economy. It will be found that Imperial Ethyl more than the product of a court of the things of th

Safety on the Highways must be maintained

NEW SPEED LIMIT THRUSTS GREATER RESPONSIBILITY ON DRIVERS FOR CARE AND COURTESY

A GREATER responsibility for alert caution rests on the morerist using the highways now that the speed limit has been raised.

In every case speed must be governed by the circumstances.

The change in the law does not to the slightest extent relieve the motorist from responsibility for careless or reckless driving, holeed, in this respect the faster movement of traftic on the high-ways will thrust upon drivers a greater necessity for caution.

In villages, in heavy traffic, at cross roads or railway crossings, where adults or children are using the highway, near schools, and at curves and bridges, care must be exercised by the motorist in accordance with the circumstances. Obselience to the law and courtery to others is expected at all times.

The raising of the specifimin in in way lessens the necessity for caution. The chapte instite law will not mitigate the offense of recklosorses or cardisoners on the part of any priver. Attention is particularly directed to the provision for cancellation of the car's license, which may follow sub-equent conviction for reckless driving.

The safety of the highways must be maintained. The Department hopes that motorists will realize this and will strive through carefulness and courtesy to continue to keep Ontario highways safe for all Who use them.

CVERY dollar in a New Star Car means 100 cents worth of value. Every hour means 60 minutes of comfort. Every mile means 5,280 feet of satisfaction.

The New Star Car is Canadian built and conforms to a standard of quality that is essential for Canadian weather and road conditions.

Its re-sale value is higher than other motor cars for two reasons, first, because of a stable factory and sales policy; second, because the number of Star Car owners desiring to sell is proportionately smaller than that of any other automobile in its class,

How the Allcast Moisture System saves money

MAGIC BAKING POWDER

Tests have proved important savings in fuel where the warm air from the furnace is properly moistened—the saving has reached upward of 20 per cent.

The Hygienic Vapor Pan in the Allcast is designed to supply the correct amount of natural moisture required for health and comfort—atmosphere that protects the family from winter ills.

Other exclusive, fuel-saving features of the Alleast are the free-draught Shell-bar Grates which insure perfect combustion, and the fuel-saving air-blast which burns the smoke and gases.

the smoke and gases.

The Alicast is easily operated. It burns soft coal and all other fuels equally well, It is reasonably priced.

Come in and let us show you its man a y important features or write for complete details.

Lives of Infants Saved by Pure Milk

"Feeding of pasteurized milk to infants in New York City has resulted in reducing infant mortality from 165 deaths out of each thou sand to less than 70 per thousand."

The above statement was made by Dr. Charles E. North, noted medical specialist in Public Health work, and Dr. Louis I. Harris, Com-missioner of Health for the City of New York, states:

"I regard pasteurization as an indispensable instrument for the ection of public health."

Medical specialists and public health workers everywhere insist that all milk sold for public use should be pasteurized, as the only safe

dian Pacific Railway helped to make a nation, said the present King, when he was Prince of Wales.

The actual creation of communities planting farms, villages, towns and cities: these were visions of the founders of the country and of the Canadian Pacific Railway.

The task of opening up much of this territory, of providing it with a population, was left to this colonizing railway, which set about to perform the work with energy and efficiency,

desert into a source of great national wealth. Underitscharter, the Canadian Pacific Railway found

itself possessor of many acres of good farm land. itself possessor of many acres of good Iarm land. By offering his on casy terms, keeping prices at a reasonable level, organizing demonstration farms, presenting shade trees and blooded stock to farm-ers, rendering aid to growing towns and cities, rectling hotels, encouraging the spirit of citizen-ship, fostering travel by admirable train service over a route of unparalleled majesty, the Canadian Pacific has helped to create a new country for the use of Canadians and the delight of their visitors who now come from all parts of the world.

To have thus assisted in the making of a great nation is one of the accomplishments of the Canadian Pacific Railway.

THE WORD THE WOND WOND Standard Time Payments Anywhere in Canada

THE Ford National Payment Plan enables you to buy a car for the same cash and monthly payment anywhere in Canada.

A small down payment gives you delivery of any model you select. The balance is paid off in standard monthly payments which do not vary regardless of tax, license, freight and delivery charges or the addition of approved Fordiaccessories.

This arrangement brings car ownership within the reach of all who really desire the conven-ience and pleasure that only a car can bring. It is sound business to buy your car from income rather than from savings.

The unusually attractive terms of this plan are at your command. Inquire within for further details.

Once again Champion reminds you that to enjoy maximum engine performance during the next twelve months you should install a complete new set of spark plugs now.

Car manufacturers recommend and hundreds of thousands of motorists are changing spark plugs every year to insure better and more economical car operation.

This is true, even of Champions, in spite of their world-wide reputation for remarkable long life.

If you have used your spark plugs more than 10,000 miles, a new set of dependable Champions will restore power and speed and save their cost many times in less gas and oil used.
